PURPOSE AND RATIONALE OF THE QUALIFICATION

Learners who complete this qualification will possess the competence required to perform community health functions under the supervision of a professional health worker. They will have the fundamental skills required for employment by a range of health, social and other sector employers. They will be in possession of a recognised qualification that will provide a platform for further education and training in a career pathway towards becoming professional health workers.

Qualified learners in this field will provide a service that will assist communities to better manage their own health and wellness. They will have the skills to provide support services within a multidisciplinary health care team.

Recipients of this qualification will be able to:

Communicate in a variety of ways.

- Use mathematics in real life situations.
- Collect and provide information to support community health.
- Provide community based care.
- Develop personal and community skills.

Practitioners will generally carry out their roles within the context of:

The client's home.

- A community care centre.
- The broader community.

COURSE EXPECTATION

This is a learnership, and therefore has a theory and workplace component.

- Learners are expected to complete the theory at the training provider.
- The workplace component must be complete at a recognised workplace.
- The activities at the workplace will be determined by the workplace tasks that need to be completed.

Workplace

Selection of Workplace

Learners are required to ensure that they have secured a workplace. Whilst IQ supports learners in this endeavour, it is the learners responsibility.

The workplace selected must be in line with the course undertaken.

Learners will be provided with a pack that includes:

- Letter of request for placement
- Placement guidelines for Employer organisations

Training

Your course comprises of the following:

- Complete Learner orientation on the programme expectations.
- Mentor guidelines for the workplace mentors.
- Work integrated guidelines for the workplace.
- Learner orientation guide.
- Process meetings map with employers and mentors.
- Training plan including the schedule of assessments
- Process map for the qualification.
- Learner guides, workbooks and log books
- E-learning lessons/ PC Tablet (with audio voice lessons)
- Training videos to support lessons showing practical applications

Assessment

Assessments are an important part of your learning as it serves as a measure to identify if you have achieved the competencies required in this course.

Various assessment methods are used during the course of your programme. All these are collated into a Portfolio of Evidence which is used for the final summative assessment.

Each module of your study will have an assessment of some form. The workplace is assessed through a logbook. This comprises a list of tasks which needs to be completed and signed off by your workplace mentor.

Delivery Modality

The delivery modality is flexible and designed according to the needs of the client. The following are some of the options:

Option 1

- Lessons are presented on a PC Tablet. These are recorded. All the learner guides and workbooks are on the PC Tablet.

Option 2

- E-learning. Lessons are on the e-learning platform and learners progress through them.

Option 3

Face to face tuition according to a training plan.
